SUMMARY

Data and Cloud Intern candidate with hands-on experience in Python, REST APIs, ETL pipelines, and backend automation. Built data extraction and quality control services using FastAPI and CLI tools, with strong understanding of JSON-based integrations and data validation. Familiar with cloud-ready application design and basic AWS services (S3, EC2), and comfortable working independently in a remote environment

SKILLS

BI Tools: Power BI (DAX, Power Query), Tableau, Looker (Basics)

Programming: Python (Pandas, NumPy, Matplotlib), SQL

Databases: MySQL, PostgreSQL, SQL Server

Tools: Excel (Advanced), GitHub, Jupyter Notebook

Concepts: ETL, Data Warehousing, KPI Design, Data Modeling

Cloud & DevOps: AWS (S3, EC2 – Basics), Cloud-ready application architecture, Environment-based configuration

Soft Skills: Communication, Problem-Solving, Teamwork, Analytical Thinking

PROJECTS

Invoice Extraction & Quality Control Service

Nov 2025 – Dec 2025

Developed a Python-based service to extract structured information from invoice PDFs including invoice numbers, dates, vendor details, and amounts. Implemented schema-based validation to detect missing or inconsistent fields. Exposed the functionality via a CLI tool and FastAPI REST API for quality checks and backend integration. Designed the system with cloud-ready architecture using environment-based configuration and S3-compatible storage concepts.

Technologies: Python, FastAPI, REST APIs, CLI, ETL, Data Validation, AWS S3 (Basics)

Amazon-Style E-Commerce Dashboard (Power BI + SQL)

Aug 2025 – Sep 2025

Built an analytics dashboard for sales and customer insights. Optimized SQL queries and Power BI models, improving refresh time by 35% and enhancing forecast accuracy by 18%.

Technologies: Power BI, SQL, DAX, Power Query

Coffee Quality Analysis (Power BI)

Aug 2025

Developed a dashboard analyzing coffee quality metrics such as aroma, acidity, and flavor. Created DAX measures for quality scoring and pattern identification across regions.

Technologies: Power BI, DAX, Power Query, Data Modeling

EXPERIENCE

Data Analyst Intern — Odin School (Bootcamp)

July 2025 – Ongoing

Working on real-world analytics projects using SQL, Power BI, and Python. Built BI solutions including Swiggy Operations Dashboard, Retail Sales Insights, and E-commerce Analytics. Applying ETL workflows, modeling, and visualization techniques across diverse datasets.

EDUCATION

B.Tech in Artificial Intelligence

Anurag University | Expected 2026

CGPA: 7.2

Intermediate

Narayana Junior College | 2020–2022

Percentage: 89%

SSC (Telangana Board)

Shine High School | 2018–2020

GPA: 10

CERTIFICATIONS

Data Science Bootcamp – Odin School (Python, SQL, Power BI, ML)

Microsoft Power BI Data Analyst (PL-300) — In Progress

Python for Everybody — University of Michigan (2025)

ACHIEVEMENTS

- Completed 20+ BI, SQL, and Python projects during the bootcamp.
- Recognized for strong dashboard design and analytical thinking.
- Achieved 0.91 R^2 in a real-world ML prediction model.

DECLARATION

I hereby declare that the information provided in this resume is true and correct to the best of my knowledge and belief.
